

AAPD Foundation: The Foundation of the American Academy of Pediatric Dentistry is the nation's largest dentist-led foundation dedicated to children's oral health.

We believe that every child, regardless of ability to pay, deserves a Dental Home— a place to receive consistent, compassionate and quality dental care.

Thanks to the generosity of people like you, the Foundation has given or committed more dollars to help children than any other national dental charity. Those funds have helped local community organizations provide dental care to more than 500,000 children who may otherwise not be able to afford care.

The community organizations and educational institutions selected by your peers and funded by the Foundation go the extra mile every day to provide a Dental Home. Our grant recipients are often the front-line "safety net" providers serving the children most at-risk.

Our goal is to provide Dental Homes to One Million Children by 2022.

1 Million Children need you!

Why donate to the AAPD Foundation? The AAPD Foundation is committed to helping children – regardless of their family’s ability to have a Dental Home – a place to receive ongoing, compassionate oral health care.

You may be among the vast majority of Academy members who help families in need in your own community. By donating to the largest dentist-led charity in the country dedicated to children’s oral health, you can be there for the children you yourself can’t help.

The community organizations and educational institutions selected by your peers and funded by the Foundation go the extra mile every day to provide a Dental Home. Our grant recipients are often the front-line “safety net” providers serving the children most at-risk, over sprawling geographic areas where the nearest pediatric dentist can be an hour or more away.

Providing dental care is not the only need met by support from the Foundation. There is no billing code for the ongoing education they provide to children and parents in the clinics, often bridging language and cultural barriers to impart the most basic health literacy. There is no reimbursement for the outreach programs they offer in the community by staffing health fairs and other events to conduct dental screenings and offer fluoride treatments.

In a number of cases, the only practical way to get care into children’s mouths is to bring that care to them, in school, at a community center, or through mobile care. Some of our grantees even go the distance by providing Uber transportation when nobody at home – or at the homeless shelter they call home – can get the child to the dentist.

The AAPD Foundation receives more than 300 applications a year for the dozen or so grants currently being given annually. Each year we are forced to turn down dozens of qualified applicants. We can do so much more...and we must do more to reach our goal.

Help us reach our goal of Dental Homes for 1 million children by 2022!

114 organizations

33 states and DC

500,000

children need dental homes

\$6 million
dollars
given

Our Mission

Every Child Deserves a Dental Home.

Our Goal by 2022

ONE MILLION children served.

In the US, **over**

34
million

school hours are lost
each year due to
dental problems¹

45%

of children aged

6 to 11

in the US are affected
by tooth decay¹

Children with cavities
in their baby teeth are

4X
MORE
LIKELY

to have cavities in their
adult teeth¹

Access to Care Grants, funded by The Foundation, enable community organizations to provide dental care to children who would otherwise go without.

Our Grantees are the people who put our mission into action.

What Is A Grant?

When you donate to the Foundation, 100% of your donation will go to fund local grantees through one of the Foundation's grants. In this way, you are helping a local community continue to expand their work to provide dental care to children in need.

Why This is so Important?

In some areas there simply are not enough pediatric dentists 'We help children who cannot afford or access care'.

2019-2020 Access to Care Grantees

Awarded up to \$20,000 for one year

Cass Community Health Foundation: Kansas City, MO

Central Florida Health Care: Winter Haven, FL

Central Virginia Health Services: New Canton, VA

Children's Dental Services: Minneapolis, MN

Children's Hospital of Wisconsin Foundation:
Milwaukee, WI

Community Health Centers of Burlington:
Burlington, VT

Community Health Center of Fort Dodge, Inc.:
Fort Dodge, IA

Community Volunteers in Medicine: West Chester, PA

Dental Aid, Inc.: Lafayette, CO

Dental Connections: Des Moines, IA

Eva's Village: Paterson, NJ

Frederick County Health Department: Frederick, MD

Kids Community Clinic of Burbank: Burbank, CA

KidSMILES Pediatric Dental Clinic: Columbus, OH

Lancaster Cleft Palate Clinic: Lancaster, PA

Mobile Care Chicago: Chicago, IL

Red Cliff Band of Lake Superior Chippewa Indians:
Bayfield, WI

Saint Louis University: St. Louis, MO

Sonrisas Dental Health, Inc.: San Mateo, CA

University of Maryland, Baltimore: Baltimore, MD

2019 Multi-Year Access to Care Grantees

Awarded \$75,000 per year/three years

Erie Family Health Center: Chicago, IL

Heart of Florida Health Center: Ocala, FL

Access to Care Grants:

■ **Single-year grants**
up to \$20,000

■ **Multi-year grants**
of \$225,000 and \$375,000

**Get to Know
our 2019-2020
Access to Care
Grantees**

Dr. Alejandra Rivera at **Central Florida Health Care** in rural Polk County will provide services to 1650 children from migrant or other low-income families in the next year, 70% of whom live below the poverty line. Services range from screening and education to pediatric dental surgery from their staff of 14 dentists and 11 hygienists.

Cass County Dental Clinic aims to provide dental services for 3,550 low-income children this grant year and is currently the only safety net dental clinic in **Cass County, Missouri** providing dental services to underserved children.

Central Virginia Health Services will use part of their grant money to purchase pediatric dental sensors for use at their 12 locations, primarily in rural areas. Some patients are on Medicaid, but many more are uninsured. The sensors will provide accurate digital images of some of their youngest patients to identify potential problems before they worsen.

Children's Dental Services (CDS) of Minnesota projects their grant award will assist 1,000 children, all of whom live below the poverty line. CDS has served low-income and vulnerable children since 1919, and has a well-developed referral network of over 100 dental providers throughout Minnesota. CDS has been providing dental care on-site at schools, Head Starts and human services locations for over 60 years, using portable dental equipment, and will continue expanding these services under this proposal.

Children's Hospital of Wisconsin & Next Door Foundation in **Milwaukee** provides early dental health education through the Head Start programs in the area. They seek to eliminate barriers to care caused by issues with transportation and work conflicts. Noting that 1 in 5 children in Head Start programs have untreated tooth decay, children identified as needing a Dental Home take a special field trip to one of their locations for a comprehensive oral exam, including x-rays if warranted. Parents and caregivers are invited to attend if possible.

In **Iowa**, the **Healthy Smiles for Fort Dodge Children** program aims to support children living below 100% of poverty; with the addition of a new suite that serves those children living below 200% of poverty.

The **Community Health Centers of Burlington** provides medical, dental and counseling services to 30,000 patients, regardless of financial status or life circumstance. To address the issue of no-show dental appointments for high-risk children, CHCB hired a Dental Case Manager to work with families to conquer transportation, language, and educational barriers.

The **Dental Home for Uninsured At-risk Children** in **Chester County, PA** will see 900 children during the grant period. They are the only provider in their area for totally free, comprehensive dental care for the uninsured. Their partnership with the local school

system means that they see between 15-25 children who are bussed from school to their clinics for screening and treatment. Children receive education on oral health as well as art activities while others are being served.

Dental Aid, Inc. of Lafayette, Colorado initiated a Caries Risk Program aimed at helping prevent dental problems before they start. Those identified as High or Very High Risk will be brought in for clinical visits every three months. Clinic services include preventive, restorative, and specialty care, including orthodontics and oral surgery.

The **Smile Squad Program at Dental Connections** in **Des Moines, Iowa** is a Mobile Dental Clinic targeting

pre-schools, Head Start programs, and elementary schools. It includes two RVs retrofitted with two dental chairs each, and can provide full-service dental care, including exams, cleanings, fluoride, x-rays, sealants, fillings, crowns, and other treatment needs. These patients are offered a regular Dental Home at the Dental Connections Main Clinic.

Eva's Village in Paterson, NJ offers dental services to uninsured and underinsured children whose families are struggling with homelessness, poverty and addiction. Volunteer dentist Dr. Mario Ramos offers services and education classes for parents to emphasize the importance of regular dental care.

In **Maryland**, the **Emergency Extractions with Sedation for Uninsured Pediatric Patients** program through the Frederick County Health Department will provide help to 36 children in the grant period. They

also provide regular non-emergency services, and can boast of an 85% recall system, with many patients returning with their own children.

In addition to in-clinic dental care, **The Kids Community Clinic of Burbank (CA)** will provide home visits to educate parents in high risk situations that could lead to early childhood caries. Their goal is to impact children before one year of age to help get them on the path to a lifetime of oral health.

KidSMILES Pediatric Dental Clinic in Columbus, OH provides care for only \$20 per visit to children in families who do not qualify for Medicaid, yet cannot afford dental insurance.

The **Lancaster Cleft Palate Clinic in Pennsylvania** provide coordinated medical and dental treatment to all patients with craniofacial conditions, regardless of their ability to pay.

The Portable Dental Clinic of **Mobile Care Chicago** assists children not able to access necessary specialty care for chronic conditions. They also deliver no-cost preventative care, education, and support by traveling to communities needing their help the most.

Red Cliff Community Health Center serves a 50-mile radius by the Red Cliff Indian community on Lake Superior in **Northern Wisconsin**. The service area is high-poverty, remote, and medically underserved, and the Center provides one of the few dental clinics in the region that accepts Medicaid patients, and patients have come from as far as five hours away to receive dental services.

The **Pediatric Dental Clinic at Saint Louis University** plan to have an impact upon the lives of more than 5,800 children in the grant period. For many who receive their services, the Clinic is a last chance stop, having been rejected by other providers for a number of reasons.

In **San Mateo, California**, the **Sonrisas Dental Health, Inc.** offers services to patients in wheelchairs using state-of-the-art equipment that safely transport the patient to dental chairs, or allow use while the patient remains in their wheelchair. Their Sonrisas Mobile Dental Units travel to partner agencies that serve agricultural workers who would otherwise be unable to bring their children to a dentist.

"The Oral Health Care for Limited Income Uninsured Young Children, or "OH-LUCY", through the **University of Maryland School of Dentistry** provides comprehensive dental care on-site for children from low-income uninsured families of Baltimore and nearby communities. Their policy is to be a dental home to all eligible children and treat all children who arrive with dental pain or other urgent needs with or without an appointment. Their educational program targets children ages 0-8 to help establish early oral hygiene routines."

AAPD Foundation Grantee St. Bernard brought smiles to Illinois Children

Dental Home Day is a day of service and a year of care, thanks to Sunstar Americas, Dental Home Day sponsor since 2013. AAPD Foundation donors and AAPD members gathered on Wednesday, May 22 to help the underserved children of Illinois receive access to dental care.

This year, Dental Home Day was held at St. Bernard Hospital Ambulatory Care Clinic, an AAPD Foundation single-year grantee. Throughout the course of the day, children received teeth examinations, cleanings and treatments for any dental issues they may have. AAPD Foundation is providing St. Bernard a \$25,000 Access to Care Grant to continue to provide care to Dental Home Day children and become a permanent Dental Home.

Help us continue the legacy of Dr. Jerome B. Miller!

All of us connected with the AAPD Foundation were profoundly saddened to learn of the passing of our beloved friend and colleague Dr. Jerome B. Miller in July of this year. Everything Jerry did improved children's lives, whether it was in his practice, participating in every level of organized dentistry, or mentoring emerging and established leaders.

In celebration of his life, the AAPD Foundation has established the Dr. Jerome B. Miller Memorial Fund, which is dedicated to supporting leadership development for AAPD members. We seek your support of this \$1 million effort.

Your gift to the AAPD Foundation will help ensure the future of the Leadership Institute programs that provide mentorship to future generations of pediatric dentists and help lead them towards philanthropy and service to those in need in their communities.

Please help us continue to inspire tomorrow's leaders in pediatric dentistry and continue the legacy of Dr. Jerome B. Miller. *Thank you!*

Leadership Institute is a learning experience with the best and brightest in leadership development

The AAPD Leadership Institute was the first institute of its kind among health care membership associations. Although others have leadership programming, none have established an ongoing commitment focusing on leadership development for the profession.

A class of 30 individuals will enroll in an educational engagement focusing on an array of topics important for leadership development. The program requires a three-year commitment; more specifically, a four-day on-campus experience at Kellogg each December. Enrollees will participate in learning experiences with some of the best and brightest minds in leadership development. The curriculum is designed to apply to those in private practice, academia, and any other professional pursuits with leadership components.
